

# Cascadia Search Dogs

Gordon has been involved in Search and Rescue since 2018. He is a former EMT/Firefighter and had a desire to continue his passion of public service and helping those in need. He has found a home within the search and rescue community that helps fuel that desire and one that continually encourages responders to strive to be their best, while serving their community for a greater good.

He is currently training his 3-year-old Yellow Labrador Retriever Vino in Human Remains Detection and serves the Cascade Search Dogs team as a Certified Field Support team member. Gordon is also a member of the SCVSAR Trackers Team.
